

Subject Index to Volume 35

A

A-23187. See Calciomycin

Acclimatization

dual core and shell temperature regulation in penguins during sea acclimatization, R1319

Acidosis

lactic acidosis transient increase of turtle myocyte metabolic rate, R1238

Activity cycles

ultradian rhythms of plasma thyroid hormone concentrations in lactating dairy cows, R1797

Adaptation, physiological

dual core and shell temperature regulation in Gentoo penguins during sea acclimatization, R1319

Adenosine

antipolytic effect in mammal adipocytes, R1141
and hypoxic release of arginine vasopressin, in fetal sheep, R215

Adenosine triphosphatase (ATPase)

Na⁺-K⁺, in skeletal muscle, thermal and nutritional effects on, in young pigs, R102

Adenosine 5'-triphosphate (ATP)

effect of ATP-MgCl₂ treatment after hemorrhagic shock and resuscitation on hepatocyte purinergic receptor binding capacity, R1810
hepatic, 2,5-anhydro-D-mannitol effect on, in rats, R112
phosphate loading effect on 2,5-anhydro-D-mannitol-induced decreases in, R1792

Adipocytes

antipolytic effects of α -adrenergic agonists, neuropeptide Y, adenosine, and prostaglandin E₁ in mammal adipocytes, R1141
garden dormouse, β -adrenergic receptivity in, R896
guinea pig, β -adrenergic receptivity in, R905
insulin sensitivity from inbred mouse strains resistant or sensitive to diet-induced obesity, R1423

Adipose tissue

See also Brown fat
changes in brown fat composition during fasting and refeeding of diet-induced obese mice, R1907
effect of thermogenic β_3 -agonist CL-316,243 on energy balance and brown and white adipose tissue, R1371
glucose uptake in, effect of chronic norepinephrine infusion on, R914

Adrenocorticotrophic hormone. See Corticotropin

Afferent pathways

effect of peripheral bombesin on activities of gastric branch of vagus nerve, R1868

Aging

renal, effect of chronic ACE inhibition on, R1038

and skeletal muscle glycogenolysis, in rats, R749

Albumins

in circulatory fatty acid transport in highly aerobic mammals, R1280
¹²⁵I-albumin technique to measure circulating blood volume, R368

Alcohol, ethyl

effect of ethanol on energy expenditure, R1204
effect on immature fetal breathing, prostaglandin E₂, and myometrial activity, R1297

Alkalosis, respiratory

effect on renal phosphate excretion in normoxic and hypoxic rats, R578

Altitude

cerebrovascular adaptation to, in pregnancy, R765
effect on erythropoiesis, in humans, R756
energy balance at high, R966

Amenorrhea

athletic, R817

Amino acids

anorectic responses to dietary imbalance: effects of vagotomy and tropisetron, R1922
excitatory, and brain microcirculation, in rats, R158
relation between plasma and brain amino acid profiles and short-term food intake in rat, R1675
release, in paraventricular nucleus, nitric oxide effect on, R306
transport, chloride-dependent, in guinea pig and rat, R997

p-Aminohippurate (PAH)

transport by isolated perfused and non-perfused avian renal proximal tubules, R1085

Anemia

renal function during chronic anemia in ovine fetus, R1759

Angiotensin-converting enzyme

effects of inhibition on intrarenal hemodynamics of spontaneously hypertensive rats, R1437
inhibition, effect on kidney aging, R1038

Angiotensin I

conversion to ANG II by serine protease in human detrusor smooth muscle, R1861
importance in plasma with ANG II overflow from canine skeletal muscle, R1664

Angiotensin II

See also Renin-angiotensin system
atrial natriuretic peptide secretion, R989
conversion from ANG I by serine protease in human detrusor smooth muscle, R1861
effect on vasopressin release, during exercise, in pigs, R118
hypertension, pressure-natriuresis relationship in, in rats, R739
joining peptide response, in rats, R802

neuronal sensitization to, aldosterone- or mineralocorticoid-induced, in rats, R564

overflow from canine skeletal muscle in vivo: importance of plasma angiotensin I, R1664

relaxes rainbow trout vessels in vitro, R1856

tone with chronic nitric oxide blockade-induced hypertension, R1470

Animals, inbred strains

blood pressure and growth in inbred rats, R702
insulin sensitivity of adipocytes from inbred mouse strains resistant or sensitive to diet-induced obesity, R1423

Animals, transgenic

mechanism of hypertension in rats expressing mouse *Ren-2* gene, R1273

Anions

organic, active efflux in choroid plexus, in rats, R392

Anorexia

responses to dietary amino acid imbalance: effects of vagotomy and tropisetron, R1922
role of interleukin-1 receptors to suppression of eating after acute colitis in rats, R1659

Anoxemia

cardiac function in fetal sheep during two weeks of hypoxemia, R1778

Anoxia

chemosensitivity to, cocaine effects on, in rats, R696
chronic, right ventricular hypertrophy in rats, R559
effect on monoamine concentration in cerebrospinal fluid, in fetal and newborn sheep, R472
effect on phosphate excretion in rats, R578
excitation of vasomotor neurons of rat rostral ventrolateral medulla with anoxia in rats, R245
high-altitude, cerebrovascular adaptation to, in pregnancy, R765
metabolic response in sinoaortic-denervated rats, R387
plasma arginine vasopressin levels in, adenosine effects on, in fetal sheep, R215
potential adaptation to acute hypoxia, R1615
swallowing and urine flow responses of ovine fetuses to 24 hours of hypoxia, R1345
ventilatory and metabolic effects of repeated hypoxia in newborn rabbits, R1584

Anti-inflammatory agents

effect of decentralization of rat superior cervical ganglia defined by temporal analysis, R1537

Antipyresis

endogenous, mediated by AVP and γ -MSH, in guinea pigs, R614

Antipyretics. See Anti-inflammatory agents

Appetite

- response to 2,5-anhydro-D-mannitol, in rats, R112
- sodium appetite, thirst, and body fluid regulation in humans during rehydration without sodium replacement, R1493

Arginine

- L-arginine during chronic hypoxia in rats, and right ventricular hypertrophy, R559
- L-arginine effect on perfusion pressure transmission to renal interstitium in Dahl salt-sensitive rats, R1730

Arginine vasopressin*See also Vasopressin*

- antipyretic effects, in guinea pigs, R614
- centrally injected, enhanced pressor response to, after oxytocin pretreatment, R592
- effect of arginine vasopressin on carotid artery baroreflex control in dog, R1510
- effects on fetal renal function, R722
- endogenous arginine vasopressin in development of gastric ulcer induced by restraint and water immersion in rats, R1448
- exogenous arginine vasopressin effect on carotid baroreflex in dog, R1510
- release, in hypoxia, adenosine as mediator of, in fetal sheep, R215
- response to atrial pressure, in dogs, R714
- response to hyperosmolality and hypotension, in ovine pregnancy, R188
- secretion, in response to hypotension, in dogs, R879

Arterial pressure. *See* Blood pressure**Aspartate**

- and cerebral microcirculation, in rats, R158

Asphyxia

- regional cerebral blood flow in ducks during submergence asphyxia, R1162

Atrial natriuretic factor (ANF)

- and C-type natriuretic peptide binding sites in rat glomerulus, R1383
- effect of acute hypocapnia on natriuretic and diuretic effects in rats, R1503
- effect of hemorrhage on plasma ANF and NH_2 -terminal pro-ANF in rats, R1933
- effect on hematocrit and plasma volume, in streptozotocin-induced diabetes, in rats, R584
- effect on renal circulation and function in diabetes mellitus, R442
- effect on renal hemodynamics, in early IDDM, in rats, R572
- influence of pregnancy on release from isolated rat heart atria, R1605
- metabolic clearance rate of, in congestive heart failure, R936
- renal, endocrine, and hemodynamic interaction in normal men with, R1244
- secretion, angiotensin II and, R989

Atrium. *See* Heart atrium**Atrophy**

- loss of osmotic thirst in multiple system atrophy: association with sinoaortic baroreceptor deafferentation, R1752

Autonomic nervous system*See also Visceral afferents*

- effects of neuropeptides in autonomic nerves of Australian lungfish, R1568
- modulation of adjustments to heat stress by central ANG II receptor antagonism, R1985
- as origin of fractal component of heart rate variability in humans, R40

Autoregulation

- cortical spreading depression reversibly impairs autoregulation of cortical blood flow, R1136

B**Baroreceptors. *See* Pressoreceptors****Baroreflex**

- effect of exogenous arginine vasopressin on carotid baroreflex control in dog, R1510
- effect of simulated microgravity on pulmonary circulation baroreflex control of forearm vascular resistance, R1962

Bats

- burst and sustainable flight performance relative to size, R1077

Behavior, animal*See also Feeding behavior*

- sexual, endogenous opioids and, in rats, R606

Binding sites

- in rat renal glomerulus for C-type and atrial natriuretic peptides, R1383

Biogenic monoamines

- in cerebrospinal fluid of fetal and newborn sheep, R472

Biology

- quantitative modeling using mathematical models, R1697

Birds

- burst and sustainable flight performance relative to size, R1077
- respiratory control, role of intrapulmonary chemoreceptor response to increased venous PCO_2 , R15

Blood-brain barrier

- attenuation by peripheral naloxone of lipopolysaccharide fever by action external to blood-brain barrier, R1824

Blood circulation

- to choroid plexuses and cerebral cortex of rat: postnatal developmental changes, R1488
- endothelium-derived relaxing factor role in hindlimb reactive and active hyperemia, R1213
- muscle, insulin-induced stimulation of, R809

Blood glucose*See also Hypoglycemia*

- 2-buten-4-olide effects on, in rats, R413

Blood platelets

- Na^+ - Ca^{2+} exchange in, in rats, R651
- serotonin uptake and compartmentation, R1061

Blood pressure

- ACTH response to, in ovine pregnancy, R180
- during air embolism, role of vagal afferents in, R790

- arginine vasopressin response to, in ovine pregnancy, R188
- and cholinergic stimulation of medial septal area, in rats, R496
- effect on arterial pressure of blockade of c-fos gene expression in rostral ventral medulla, R1418
- during furosemide diuresis, in rats, R537
- and growth, in inbred rats, R702
- improvement of transmission to renal interstitium with L-arginine in Dahl salt-sensitive rats, R1730
- influence of renal perfusion pressure on renin release in rats: L-NAME administration to inhibit nitric oxide synthase, R1273
- monogenetic model of hypertension in transgenic rats expressing mouse *Ren-2* gene, R1273
- and salt appetite in rats, R458
- in study of role of baroreceptors in cardiovascular regulation, R1705
- in vasopressin response to hypovolemia, R714

Blood proteins

- evolution of marsupial and other vertebrate thyroxine-binding plasma proteins, R1359

Blood volume

- circulating, after trauma-hemorrhage and hemodilution, in rats, R368
- effect of simulated microgravity on cardiopulmonary baroreflex control of forearm vascular resistance, R1962
- fetal, response to lymph drainage, in sheep, R709

Body mass

- and tendon biomechanical properties in adult mammals, R1016, R1022

Body temperature

- endotoxin effect on regulation in rats, R1, R9
- interleukin-8 induces fever by prostaglandin-independent mechanism, R1670
- regulation in sinoaortic-denervated rats, R387
- regulation of lipopolysaccharide fever: attenuation by peripheral naloxone by action external to blood-brain barrier, R1824
- thermosensitive characteristics of supra-chiasmatic nucleus in circadian rhythm, R1876

Body weight

- effect of nitric oxide synthase antagonism on, in mice, R164
- in lateral hypothalamus-lesioned rats, R503
- reduction, after central transplantation of insulin-secreting cells, in rats, R59
- regulation of body fat in hamsters, R870
- role of hypothalamic neuropeptide Y gene expression in regulation of, R1687
- weight loss after central transplantation of insulin-secreting cells, in rats, R59
- weight loss with lateral hypothalamic area lesion, in rats, R503

Bombesin

- peripheral bombesin effect on gastric vagal efferent activity in rats, R1868

Bradycardia

- with L-glutamate microinjection into nucleus tractus solitarius, in rats, R730
- with NTS-injected serotonin, in spontaneously hypertensive rats, R599

Brain

- See also **Blood-brain barrier**; **Cerebrovascular circulation**
- high-flow microinfusions in, R292
- microcirculation, excitatory amino acids and, R158

Brain mapping

- of regional cerebral blood flow in ducks during submergence asphyxia, R1162

Brain stem

- c-fos* gene expression in ferret dorsal vagal complex after peripheral emetic stimuli, R1118

Breathing. See Respiration**Brown fat**

- effect of diet composition on brown fat uncoupling protein mRNA, R1578
- temperature response to hypothalamic stimulation, in rats, R328, R831

C**Calcimycin**

- as endothelium-dependent vasodilator, R559

Calcitonin gene-related peptide

- α -CGRP contribution to gastroprotection by intercostal injection of RX-77368 thyrotropin-releasing hormone, R1610

Calcium

- See also **Hypercalcemia**
- cytosolic, in urinary bladder smooth muscle, R20
- metabolism, during stress, in rats, R960

Calcium channels

- effect of antagonists on urinary bladder growth and neuroplasticity after mechanical stress, R20

Calorimetry

- direct, measurement of energy expenditure in infants, R1052

Captopril

- effect on water and salt intake, in rats, R458

Carbachol

- increased potency in isolated rat left atria, after reserpine pretreatment, R487

Carbohydrates

- fluid intake stimulation by: interaction between taste and calories, R682

Carbon dioxide

- production, doubly labeled water method for estimating, validation in sheep, R169
- venous, intrapulmonary chemoreceptor response to, in birds, R15

Carcinus maenas

- cardiac performance in, R781

Cardiovascular system

- autonomic functions and orthostatic responses after acute intense exercise in paraplegics, R1189
- cardiac function in fetal sheep during two weeks of hypoxemia, R1778
- effects of steroids on pressor responses in ovariectomized rats, R1267

- increased capacity for fatty acid transport in highly aerobic mammal, R1280

- response to activation of medial septal area, role of lateral hypothalamus in, in rats, R496
- response to interleukin-1 β in conscious rats, R1148
- response to psychological stress, in humans, R75
- sinoaortic denervation to study role of baroreceptors in, R1705

Carnitine palmitoyltransferase I

- activity, in fish muscle, thermal acclimation and, R405

Carotid arteries

- role of exogenous arginine vasopressin on baroreflex control in dog, R1510

Carotid sinus

- sinoaortic denervation to study role of baroreceptors in cardiovascular regulation, R1705

Catalase

- activity in skeletal muscle, after exercise, in rats, R375

Catecholamines

- 2-buten-4-olide effects on, in rats, R413
- in cerebrospinal fluid of fetal and newborn sheep, R472
- levels, during exercise, in pigs, R118
- in sympathetic responses evoked by stimulation of rostral medulla, R338

Cell division

- in aortic smooth muscle, ANF-C-receptor-mediated inhibition of, R194

Cell membrane

- fluidity in cells isolated from turtle olfactory epithelia and liposomes dependent on temperature for odor discrimination, R1816

Cells

- See also **Epithelial cells**
- human pancreatic cancer, CCK receptors in, identification and characterization of, R277

Cells, heart muscle

- lactic acidosis transiently increases metabolic rate in turtle, R1238

Cells, smooth muscle

- induction of nitric oxide synthase by interleukin-1 β and tumor necrosis factor- α in rat muscle cells, R1197

Central nervous system

- effect of centrally administered endothelin on sympathetic nervous system with naloxone, R1403

Cerebral cortex

- postnatal developmental changes in blood flow to, R1488

Cerebral ischemia

- descending pathways of pressor response elicited by suprapontine cerebral ischemia in rabbits, R1832

Cerebrospinal fluid

- active efflux of β -lactams from, via choroid plexus, in rats, R392
- monoamine concentrations in fetal and newborn sheep, R472

Cerebrovascular circulation

- regional: during submergence asphyxia in Pekin ducks, R1162
- regulation, nitric oxide in, in rats, R518; R546
- spontaneous waves of, and EEG bursts, in rats, R204

- spreading depression reversibly impairs autoregulation of cortical blood flow, R1136

Chemokines

- and intercrines in central regulation of feeding, R1711

Chemoreceptors

- in body temperature regulation, in rats, R387
- central arterial, in hypoxia-stimulated rat rostral ventrolateral medulla, R245
- central chemoreceptors in behavioral thermoregulation of toad *Bufo marinus*, R1483
- interaction between chemo- and pulmonary stretch receptor inputs at medullary respiratory neurons, R1951
- intrapulmonary, response to increased venous PCO₂, in birds, R15

Cholecystokinin

- effects on growth of human pancreatic cancer, R277
- postingestive alliesthesia produced by, in rats, R633
- response of magnocellular system in rats during pregnancy and lactation, R1327
- suppression of sham feeding, in rats, duodenal infusions and, R466

Cholecystokinin A receptor. See Receptors, cholecystokinin**Cholinergic agents. See Parasympathomimetics****Chorda tympani nerve**

- activity, in canine taste responses to umami substances, R944
- transection, effect on salt preference in rats, R510

Choroid plexus

- active efflux of organic anions in, R392
- postnatal developmental changes in blood flow to, R1488

Chrysemys picta bellii

- oxidative properties of heart and liver mitochondria from, R858

Circadian rhythm

- of adaptive sodium and potassium excretion in rats after uninephrectomy, R1454
- effect of temperature on chick pineal cell production and release of melatonin, R50
- as factor influencing compensatory feeding during parenteral nutrition in rats, R1928
- persistence in hibernating ground squirrels, R1251
- of plasma thyroid hormone concentrations in lactating dairy cows, R1797
- response to light of rat pineal melatonin rhythm: evaluation by microdialysis, R1849
- thermosensitive characteristics of suprachiasmatic neurons in vitro, R1876

Cocaine

- effects on breathing and chemosensitivity, in rats, R696

Colitis

- effect of central interleukin-1 receptors on suppression of feeding after acute colitis in rats, R1659

Corticosterone

- 2-buten-4-olide effects on, in rats, R413

Corticosterone (*continued*)

- relative contribution of type I and II receptors in ventromedial hypothalamic lesion-induced obesity and hyperinsulinemia, R1623
- role in binding of glucocorticoid and corticosterone-preferring type I and type II receptors, R1523

Corticotropin

- responses to hypoglycemia and hypotension, in pregnant ewes, R189
- secretion, alcohol-induced, effect of PVN lesions on, in rats, R553
- in stress response, in rats, R353

Corticotropin-releasing hormone

- response to changes in glucocorticoid status, in rats, R353

Cortisol

- increase inhibits basal vasopressin release in dogs, R1744
- secretion, regulation of, in dogs, R879

Creatine kinase

- release, during exercise, in horses, R434

Cryopreservation

- effects of temperature and freezing on hepatocytes of freeze-tolerant frog *Rana sylvatica*, R1477

Cytokines

- brain, effect on sympathetic nervous system, in rats, R400
- chemokines/interleukins in central regulation of feeding, R1711
- in hypothermia response to bacterial endotoxin, in rats, R9

D**Data interpretation, statistical**

- multivariate approach to quantitative modeling of biological systems, R1697

Deglutition

- electrophysiology of, in rats, R622
- esophageal motoneurons in, in rats, R622
- fetal swallowing: ovine, and renal responses to oligohydramnios, R972
- response of ovine fetuses to 24 hours of hypoxia, R1345

Denervation

- effect of renal denervation on postprandial sodium excretion in experimental heart failure, R1599
- sinoaortic, metabolism and, in rats, R387
- sinoaortic, response of rostral ventrolateral medulla neurons to, R361
- use of sinoaortic denervation to study role of baroreceptors in cardiovascular regulation, R1705

Deuterium

- in doubly labeled water method to estimate energy expenditure in sheep, R169

Dexamethasone

- effect of maternal treatment on fetal fluids in sheep, R1174

Diabetes mellitus

- food intake in, nitric oxide regulation of, in mice, R164
- metabolic and neurochemical profiles in, effect of insulin treatment, in rats, R87
- renal and vascular responses to LBNP in insulin-dependent, R442

- spontaneous, glomerular hyperfiltration during onset of insulin-dependent diabetes in rats, R572
- streptozotocin-induced, atrial natriuretic peptide effects in, in rats, R584
- VMH-dietary obese rat as model of non-insulin-dependent, R921

Diet

See also **Feeding behavior**; **Nutrition**; **Nutrition disorders**; **Orexigenic agents**

- anorectic responses to amino acid imbalance: effect of vagotomy and tropisetron, R1922
- caloric intake suppression after preload: calories, volume, and macronutrients, R1314
- composition as factor influencing compensatory feeding during parenteral nutrition in rats, R1928
- dietary fats and muscle insulin resistance, R95
- effect of high-carbohydrate and -fat diets on neurotrophin Y mRNA and brown fat uncoupling protein mRNA, R1578
- effect of olfactory bulb removal and food restriction on reproductive function, R1891
- factors in macronutrient selection after dietary restriction, R426
- glucoprivic feeding during parenteral nutrition, hepatic vagotomy and, in rats, R646
- involvement of liver and skeletal muscle in sucrose-induced insulin resistance: dose-response studies, R1637
- meal patterns of macronutrient intake in rats with dietary preferences, R1395
- plasma volume and ion regulation during exercise after low- and high-carbohydrate diets, R1896

Disodium 5'-guanylate

- canine taste responses to, enhancement by salts, R944

Doubly labeled water

- in estimation of carbon dioxide production in sheep, R169
- in estimation of energy expenditure during exercise at high altitude, R966

Drug delivery systems

- high-flow microinfusion technique, delivery of large volume to brain via, R292

Ducks

- regional cerebral blood flow during submergence asphyxia in Pekin duck, R1162

E**Eating**

- See also **Diet**; **Food intake**
- changes in, with elevation of insulin signal in rat brain, R59
- contribution of interleukin-1 receptors to suppression of eating after acute colitis in rats, R1659
- dynamics of intake suppression after preload, R1314
- hamsters respond to restricted food supplies by food hoarding but not food intake, R1111

Efferent pathways

- effect of peripheral bombesin on activities of gastric and cervical efferent activity, R1868

Electroencephalography

- bursts, and spontaneous cerebral vasodilation, in rats, R204

Elephant seal

- pups, cardiorespiratory patterns in, R863

Embolism, air

- sympathetic response to, R790

Emotions

- physiology of, during stress, in rats, R960

Endocrine system

- interaction in normal men with atrial and brain natriuretic peptides, R1244

Endothelin-1

- Big endothelin-1 hemodynamic effects in fetal sheep, R929
- effect on sympathetic nervous system when centrally administered: effect of naloxone, R1403

Endothelium-derived relaxing factor

- in hindlimb reactive and active hyperemia in dogs, R1213

Endotoxemia

- substrate kinetics during, R419

Endotoxins

- effects on body temperature, in mice, R125
- hypothermia response to, mechanisms and agents of, in rats, R1, R9

Energetics. See Energy metabolism**Energy metabolism**

- balance during exercise at high altitude, R966
- coordination by neuropeptide Y in hypothalamic paraventricular nucleus, R1765
- effect of ethanol on energy expenditure, R1204
- effect of thermogenic β_3 -agonist CL-316,243 on energy balance and adipose tissue, R1371
- elastic energy storage and body mass, in mammals, R1022
- energy requirement for molt in king penguin, R1182
- in infants, measurement, by direct calorimetry, R1052
- maintenance of energy balance by hamsters with food deprivation and restriction and blockade of metabolism, R1111

Enzymes

- levels of reninlike enzymes in plasma and reproductive tract of pregnant wallaby, R1353

Epithelial cells

- control of function in *Drosophila*, R1716
- temperature dependence of turtle olfactory cells on odor discrimination ability, R1816
- X-ray microanalysis using rubidium of *Locusta* Malpighian tubule cell function, R1551

Erythrocytes

- band 3 modulation in, in skate, R65
- hypotonic-stimulated taurine efflux, in skate, R65

Erythropoiesis

- at high altitude, in humans, R756

Esophagus

motoneurons in, in rats, R622

Estradiol

effects of 17 β -estradiol on pressor responses in ovariectomized rats, R1267

Ethanol. See Alcohol, ethyl**Exercise**

autonomic functions and orthostatic responses in paraplegics after, R1189
effect of hepatic portal infusion of pyruvate on pancreatic hormone response during exercise, R1630
metabolism, muscular reflex control of, R824
muscle damage during, kinetic evaluation of, in horses, R434
plasma volume and ion transport regulation during exercise after low- and high-carbohydrate diet, R1896
purine exchange in liver and muscle with, R81
vasopressin release during, in pigs, R118

F**Fasting**

energy and protein requirements for molar in king penguin, R1182

Fats

See **Adipocytes; Adipose tissue; Brown fat; Diet; Obesity**

Fatty acids

circulatory fatty acid transport in highly aerobic mammal, R1280

Feeding behavior

baseline preferences in, effect on macronutrient selection after dietary restriction, factors affecting, R426
chemokines/interleukins in central regulation of, R1711
endotoxin-induced change in, in mice, R125
factors influencing compensatory feeding during parenteral nutrition in rats, R1928
lateral hypothalamic area in, studies in rats, R503
metabolic influences on, during parenteral nutrition, in rats, R381
response to 2,5-anhydro-D-mannitol, in rats, R112
of satiated rats with intraventricular and intraparaventricular injections of metergoline, R1562

Fetus

cardiac function in fetal sheep during two weeks of hypoxemia, R1778
effect of ethanol on immature fetal breathing, prostaglandin E₂, and myometrial activity, R1297
effect of maternal glucocorticoid treatment on fetal fluids in sheep, R1174
kidney function during chronic anemia in ovine fetus, R1759
swallowing and urine flow responses of ovine fetuses to 24 hours of hypoxia, R1345

Fever

activity of interleukins-1 β and -6 during lipopolysaccharide-induced fever in rats, R1845
antipyretic effects of AVP and γ -MSH in, in guinea pigs, R614

attenuation by peripheral naloxone of lipopolysaccharide fever by action external to blood-brain barrier, R1824

endotoxin-induced, in rats, R1, R125
interleukin-8 induces fever by prostaglandin-independent mechanism, R1670

Fibroblasts

release of interleukin-6 from wound-derived, R1840

Fish

ANG II relaxation of rainbow trout vessels in vitro, R1856
effects of neuropeptides in Australian lungfish *Neoceratodus forsteri*, R1568
insulin binding and receptor tyrosine kinase activity in skeletal muscle of carnivorous and omnivorous, R1944
lung surfactant composition and function in air-breathing fish, R1309

Flight, animal

burst and sustainable flight performance scale with size, R1077

Fluid-electrolyte balance. See Water-electrolyte balance**Fluids**

balance during oligohydramnios, in fetal sheep, R972
effect of maternal glucocorticoid treatment on fetal fluids in sheep, R1174
increased postnatal lymphatic pressure without increased neck vein pressure during intravenous infusions, R1596
lack of edema in toad lungs after pulmonary hypertension, R1338
regulation of body fluids in humans during rehydration without sodium replacement, R1493
stimulation of intake by carbohydrates: interaction between taste and calories, R682
transport by isolated perfused and non-perfused avian renal proximal tubules, R1085
water balance in rats, R458

Food deprivation

changes in composition of brown adipose tissue during fasting and refeeding of diet-induced obese mice, R1907
food hoarding response to deprivation and restriction in Siberian hamsters, R1111
macronutrient selection after, factors affecting, R426

Food intake

See also **Diet; Eating**

2,5-anhydro-D-mannitol-induced increase prevented by phosphate loading, R1792
2-buten-4-olide effects on, in rats, R413
characterization of interaction between central 5-HT and norepinephrine systems in control of food intake, R1645
meal patterns of macronutrient intake in rats with dietary preferences, R1395
metabolic control of, during parenteral nutrition, in rats, R381
nitric oxide regulation of, in obese and diabetic mice, R164

postprandial sodium excretion in dogs with renal denervation in experimental heart failure, R1599
relation between plasma and brain amino acid profiles and short-term food intake in rat, R1675

Free radicals

antioxidant enzyme (superoxide dismutase, catalase, glutathione peroxidase) effect on, R375

Freezing

effects of temperature and freezing on hepatocytes from freeze-tolerant frog *Rana sylvatica*, R1477
¹H magnetic resonance imaging of freezing and thawing in freeze-tolerant frog *Rana sylvatica*, R1771

Frogs

effects of temperature and freezing on hepatocytes from freeze-tolerant frog *Rana sylvatica*, R1477
¹H magnetic resonance imaging of freezing and thawing in freeze-tolerant frog *Rana sylvatica*, R1771

Fructose

2,5-anhydro-D-mannitol-induced decrease in ATP and increase in food intake prevented by phosphate loading, R1792

Furosemide

diuresis, renal nerve activity in rats, R537
effect on water and salt intake, in rats, R458

G**Ganglia**

decentralization of rat superior cervical ganglia in temporal analysis of anti-inflammatory effects, R1537

Gastric mucosa

injury, during stress, in rats, R960
injury, with lateral hypothalamic area lesion, in rats, R503

Gene expression

effect of acute salt loading on vasopressin mRNA level in rat brain, R1591
effect of blockade of *c-fos* gene expression in rostral ventral medulla, R1418
of *c-fos* gene in ferret dorsal vagal complex after peripheral emetic stimuli, R1118
increase in neuropeptide Y gene expression with stimulation of type II corticosteroid receptor in basomedial hypothalamus of rat, R1523
role of hypothalamic neuropeptide Y gene expression in body weight regulation, R1687

Genes, c-fos

effect on arterial blood pressure of blocking expression of *c-fos* in rostral ventral medulla, R1418
expression in ferret dorsal vagal complex after peripheral emetic stimuli, R1118

Genes, Ren-2

hypertension mechanism in transgenic rats expressing mouse *Ren-2* gene, R1273

Geranylgeranylacetone

protective effect in LHA-lesioned rats, R503

Glomerular filtration rate

determination after inhibition of proximal tubular reabsorption in rats, R1544

elevated, in early spontaneous insulin-dependent diabetes mellitus, in rats, R572

Glossopharyngeal nerve

transection, effect on salt preference in rats, R510

Glucagon

regulation of gluconeogenesis in neonatal bovine, R1229

Glucocorticoids

effect of maternal treatment on fetal fluids in sheep, R1174

Gluconeogenesis

regulation by insulin and glucagon in neonatal bovine, R1229

Glucose

See also **Blood glucose**

cerebral utilization, with inhibition of nitric oxide synthesis in rats, R518
duodenal infusions, and suppression of sham feeding, in rats, R466
homeostasis, during exercise, R824
in insulin-stimulated and exercised muscle of rats on high-fat diet, R95
kinetics, during endotoxemia in humans, R419
turnover, after mixed meal, in dogs, R889
uptake, in adipose tissue, effect of chronic norepinephrine infusion on, R914

Glucose transport protein. See Monosaccharide transport proteins**GLUT4**

chronic caloric restriction enhances insulin-stimulated muscle glucose transport in adult, middle-aged, and old rats, R1443

Glutamate

and cerebral microcirculation, in rats, R158
L-glutamate microinjection, into nucleus tractus solitarius, pressor and bradycardic responses to, R730
L-glutamate microinjection, renal nerve response to, R599

Glutathione

glutathione peroxidase activity in skeletal muscle, after exercise, in rats, R375

plasma, maturational changes in, in rats, R979

Glycogenolysis

skeletal muscle, adrenergic-stimulated, in perfused hindlimb of rats, R749

Gonadotropins

effect on secretion of bilateral removal of olfactory bulbs in male hamsters, R1891

Growth

and blood pressure, in inbred rats, R702

Growth hormone

effects on gill chloride cells in juvenile Atlantic salmon, R850

Guanosine 3',5'-cyclic monophosphate (cGMP)

generation, in human platelets, R526

role for nitric oxide-cGMP signaling pathway: control of epithelial function in *Drosophila*, R1716

H**Hamsters**

body fat regulation in, R870

Heart

crustacean, semi-isolated, R781

functional capacity of nicotine-sensitive intrinsic cardiac neurons to modify heart, R1127

hypertrophy, in SHR with malignant hypertension, R451

Heart atrium

influence of pregnancy on atrial natriuretic factor release from isolated, R1605

negative inotropic effects of muscarinic agonists, in rats, R487

Heart failure

baroreflex control of efferent renal sympathetic nerve activity in congestive, R27

effects of renal denervation on postprandial sodium excretion in experimental heart failure, R1599

metabolic clearance rate of atrial natriuretic factor in congestive, R936

Heart rate

insulin effects on, in rats, R481

variability, fractal nature of, in humans, R40

Heat

adjustments to heat stress by autonomic nervous system modulated by central ANG II receptor antagonism, R1985

Heat shock

reduction in chick pineal cell production and release of melatonin, R50

role of heat-shock proteins in potential adaptation to acute hypoxia, R1615

Hematocrit

atrial natriuretic peptide effect on, in streptozotocin-induced diabetes, in rats, R584

role in potential adaptation to acute hypoxia, R1615

Hemodynamics

control of vasopressin and thirst in multiple system atrophy, R1752

effects of angiotensin-converting enzyme and α_1 -adrenoreceptor inhibition on intrarenal, R1437

hemorrhage effects on plasma atrial natriuretic factor, NH_2 -terminal pro-ANF and pressor hormones in rats, R1933

in normal men with atrial and brain natriuretic peptides, R1244

Hemoreflexometer

use in vivo, in rats, R368

Hemorrhage

circulating blood volume after, in rats, R368

effect on plasma atrial natriuretic factor, NH_2 -terminal pro-atrial natriuretic factor, and pressor hormones in rats, R1933

pituitary-adrenal system response to repeated hemorrhage after surgery, R1976

Hemorrhagic shock. See Shock, hemorrhagic**Hepatocellular function**

after hemorrhage and fluid resuscitation, in rats, R368

Hepatocytes

downregulation of P_2 -purinoceptor binding capacity after hemorrhagic shock and resuscitation, R1804

effect of ATP-MgCl₂ treatment on P_2 -purinoceptor binding capacity after hemorrhagic shock and resuscitation, R1810

effects of temperature and freezing on freeze-tolerant frog hepatocytes, R1477

regulation of gluconeogenesis in neonatal bovine, R1229

trout, plasma membranes, temperature adaptation in, R773

Hibernation

persistence of circadian rhythmicity in hibernating ground squirrels, R1251

thermal effects on neuronal activity in suprachiasmatic nuclei of hibernators and nonhibernators, R1259

Histamine

mast cell, in thermogenic response of brown adipose tissue to hypothalamic stimulation, R831

Histamine H_2 receptors. See Receptors, histamine**Homeostasis**

REM-sleep timing controlled by, R1992

Hormones

hemorrhage effects on pressor hormones in anesthetized and conscious rats, R1933

5-HT. See Serotonin**Hydrogen ion concentration**

distribution in tissues, determination of, R638

Hypercalcemia

effects in tilapia of recombinant prolactins, R1302

Hypercapnia

cerebrovasodilation with, attenuation by nitric oxide synthesis inhibitor, in rats, R518

cerebrovasodilation with, nitric oxide-dependent and -independent components of, in rats, R546

role in eliciting behavioral hypothermia in toad *Bufo marinus*, R1483

Hyperemia

endothelium-derived relaxing factor in hindlimb reactive and active, R1213

Hyperglycemia

cerebral glucose and oxygen metabolism in, in fetal lamb, R1076

effect of intrahypothalamic insulin on rats drinking high-sucrose solution, R1463

Hyperinsulinemia

contribution of corticosterone types I and II in ventromedial hypothalamic lesion-induced obesity, R1623

effect of intrahypothalamic insulin on sympathetic nervous function in rats drinking high-sucrose solution, R1463

Hypertatremia

effects of plasma hypertatremia on
nucleus tractus solitarius neurons,
R1916

Hyperphagia

role of nitric oxide with: obese and dia-
betic mice, R164

Hypertension

angiotensin II and α_1 -adrenergic tone in
nitric oxide blockade-induced, R1470
angiotensin II-induced, pressure-natri-
uresis relationship in, in rats, R739
cardiac hypertrophy and brain natri-
uretic peptide in, in rats, R451
mechanisms in transgenic rats express-
ing mouse *Ren-2* gene, R1273

Hypertension, pulmonary

with chronic hypoxia, R559
lack of edema in toad lungs after, R1338

Hyperventilation

natriuretic and diuretic effects of atrial
natriuretic factor with acute hypo-
capnia in rats, R1503

Hypocalcemia

during stress, in rats, R960

Hypocapnia

with acute hypoxia, renal response to, in
rats, R578
effect of acute hypocapnia on natriuretic
and diuretic effects of atrial natri-
uretic factor in rats, R1503

Hypoglycemia

ACTH response to, in ovine pregnancy,
R180
in diabetes, effect of various insulin regi-
mens on, in rats, R87

Hypotension

ACTH response to, in ovine pregnancy,
R180
during air embolism, role of vagal affer-
ents in, R790
arginine vasopressin response to, in
ovine pregnancy, R188
cerebral blood flow response to cortical
spreading depression, R1136
hydralazine-induced, response of C1 me-
dulla oblongata neurons to, in rats,
R361

Hypothalamic-pituitary-adrenal axis

in stress responsiveness in rats, strain
differences in, R353

Hypothalamus

lateral and ventromedial, electrical
stimulation of, temperature re-
sponse of brown adipose tissue to,
R328
lateral hypothalamic area: lesion, in
rats, gastric damage and body
weight loss with, R503
neuropeptide Y in paraventricular
nucleus, a center coordinating en-
ergy metabolism, R1765

Hypothermia

role of central chemoreceptors in behav-
ioral thermoregulation of toad *Bufo*
marinus, R1483

Hypovolemia

response of neurosecretory system in
rats during pregnancy and lactation,
R1327

Hypoxanthines

metabolism, after strenuous short-term
exercise, R81

Hypoxemia. See Anoxemia**I****Imidazole**

fractional dissociation, $^1\text{H-NMR}$ mea-
surement of, in intact animals,
R1008

Imino acids

specificity of imino acid carrier in rat
small intestine, R1154
transport, chloride-dependent, in guinea
pig and rat, R997

Immune system

response to acute psychological stress, in
humans, R75

Indocyanine green

clearance, in measurement of circulating
blood volume, in rats, R368

Infant, newborn

effect of repeated hypoxia on respiration
and metabolism of newborn rabbits,
R1584
growth and metabolism of muscle tissue
in protein-malnourished neonatal
pigs, R1736
postnatal developmental changes in
blood flow to choroid plexuses and
cerebral cortex of rat, R1488
regulation of gluconeogenesis in neona-
tal bovine, R1229

Infusion

high-flow microinfusion to deliver mac-
romolecules to brain, R292
increased lymphatic pressure without
increased neck vein pressure during
intravenous, R1596

Injections

effect of intraventricular metergoline
injections on feeding behavior of
satiated rats, R1562

Inosine

uptake in human liver after strenuous
exercise, R81

Inotropic agents

negative, R487

Insects

burst and sustainable flight performance
relative to size, R1077

Insulin

adipocyte sensitivity to diet-induced obe-
sity: inbred mouse strains, R1423
binding in skeletal muscle of carnivorous
and omnivorous fish, R1944
effect of intrahypothalamic insulin on
sympathetic nervous function in
rats drinking high-sucrose solution,
R1463
enhancement of reflex tachycardia, in
rats, R481
evidence for pancreatic pacemaker for
insulin oscillations in low-frequency
range, R1786
food intake and, after central pancreatic
islet transplantation, in rats, R59
NPH, effect on glycemic state and 5-HT,
in diabetic rats, R87
protamine zinc, effect on glycemic state
and 5-HT, in diabetic rats, R87
regulation of gluconeogenesis in neona-
tal bovine, R1229
Ultralente, effect on glycemic state and
5-HT, in diabetic rats, R87

Insulin-dependent diabetes mellitus.

See Diabetes mellitus

Insulin resistance

liver and skeletal muscle in sucrose-in-
duced resistance to insulin: dose-
response studies, R1637
in skeletal muscle, with high-fat diet,
R95

Interleukin-1

central, effect on norepinephrine turn-
over, R400
interleukin-1 α in human sweat gland,
R950
interleukin-1 β antibodies, and sleep, in
rats, R688
interleukin-1 β : cardiovascular response
to, R1148
interleukin-1 β induction of nitric oxide
synthase in rat vascular smooth
muscle cells, R1197
interleukin-6 causes increase in interleu-
kin-1 β in anterior hypothalamus
during lipopolysaccharide fever in
rats, R1845

Interleukin-6

activity in wounds, R1840
in anterior hypothalamus is increased by
interleukin-1 β during lipopolysac-
charide-induced fever in rats, R1845

Interleukin-8

induces fever by prostaglandin-indepen-
dent mechanism, R1670

Intestine, small

specificity of imino acid carrier in rat
small intestine, R1154

Ion transport

cell function of *Locusta* Malpighian tu-
bule, R1551
nitric oxide-cGMP signaling pathway:
control of epithelial function in *Dro-
sophila*, R1716
regulation during exercise after low- and
high-carbohydrate diets, R1896

Ischemia

effect of brief mesenteric ischemia on
prostaglandin E_2 in intestinal lymph
of cats, R1692
skeletal muscle, effect on purine ex-
change, R81

Islets of Langerhans

evidence for pacemaker in islets for insu-
lin oscillations in low-frequency
range, R1786

K**Kidney**

abnormalities, in insulin-dependent dia-
betes mellitus, R442
aging, effect of chronic ACE inhibition
on, R1038

Kidney function

changes during positive-pressure breath-
ing in humans, R1120
during chronic anemia in ovine fetus,
R1759
interaction with atrial and brain natri-
uretic peptides in normal men,
R1244
natriuretic and diuretic effects of atrial
natriuretic factor in rats with acute
hypocapnia, R1503
vasopressin effects on fetal, R722

Kidney medulla

analysis to determine presence of extra-
vascular protein in, R1429

Kidney medulla (*continued*)

mediation by descending pathways of rostral medulla on pressor and sympathetic responses elicited by suprapontine cerebral ischemia, R1832

Kidney tubules, collecting

transport of PAH, urate, TEA, and fluid by isolated avian renal proximal tubules, R1085

Kidney tubules, proximal

glomerular filtration rate after inhibition of proximal tubular reabsorption in rats, R1544

L**Lactates**

effect of lactate concentration and metabolic rate on net lactate uptake by canine skeletal muscle, R1095

Lactation

response of magnocellular system in rats to hypovolemia and cholecystokinin during pregnancy and, R1327

Laser-Doppler flowmetry

of cerebrovascular response to hypercapnia, in rats, R518, R546
of regional cerebral blood flow, in rats, R204

Leucine

kinetics, during endotoxemia in humans, R419

Leukocytes, polymorphonuclear. See Neutrophils**Lingual nerve**

parasympathetic vasodilator fibers in trigeminal portion of distal lingual nerve in cat tongue, R1517

Lipolysis

adrenergic activation, in garden dormouse adipocytes, R896
adrenergic activation, in guinea pig adipocytes, R905
antilipolysis effect of α -adrenergic agonists, neuropeptide Y, adenosine, and prostaglandin E_1 in mammalian adipocytes, R1141

Lipopolysaccharide. See Endotoxins**Liver**

effect of hepatic portal infusion of pyruvate on pancreatic hormone response during exercise, R1630
involvement in sucrose-induced insulin resistance: dose-response studies, R1637
phosphate trapping, and eating behavior, after anhydro-D-mannitol, in rats, R112
purine exchange in, with short-term exhaustive exercise, R81

Locomotion

endotoxin-induced change in, in mice, R125

Low- T_3 syndrome

threshold, in exercising women, R817

LPS. See Endotoxins**Lung**

lack of toad lung edema after pulmonary hypertension, R1338
surfactant composition and function in air-breathing fish lung, R1309

Lymph

effect of brief mesenteric ischemia on prostaglandins E_2 and I_2 in cat intestinal lymph, R1692

Lymphatic system

increased postnodal intestinal pressure without increased neck vein pressure during intravenous infusions, R1596

Lysine vasopressin

release in exercising swine, R118

M**Macrophages**

depletion, effect in response to bacterial endotoxin, in rats, R1
effect on anti-inflammatory function with decentralization of rat superior cervical ganglia, R1537
release of interleukin-6 from wound-derived, R1840

Magnetic resonance imaging

1H MRI of freezing and thawing in freeze-tolerant frog *Rana sylvatica*, R1771

Malpighian tubules

X-ray microanalysis using rubidium of *Locusta* Malpighian tubule cell function, R1551

Marsupialia

evolution of thyroxine-binding plasma proteins in, R1359

Mast cells

histamine, in thermogenic response of brown adipose tissue to hypothalamic stimulation, R831

Mechanoreceptors

interaction between pulmonary stretch receptor and chemoreceptor inputs at medullary respiratory neurons, R1951

Medial septal area

cholinergic stimulation of, cardiovascular effects of, in rats, R496

Medulla oblongata

C1 neurons, response to baroreceptor afferent activity, in rats, R361
and sympathoexcitation, R338

 γ -Melanocyte-stimulating hormone

antipyretic effects, in guinea pigs, R614

Melatonin

output in cultured chick pineal cells, temperature effect on, R50
response to light of rat pineal melatonin rhythm: in vivo microdialysis analysis, R1849

Metabolism

See also **Energy metabolism**
effect of lactate concentration and metabolic rate on net lactate uptake by canine skeletal muscle, R1095
effect of metabolic blockade on food hoarding activity by hamsters, R1111
effect of repeated hypoxia in newborn rabbits, R1584
increase in metabolic rate with lactic acidosis in turtle myocytes, R1238
in liver of freeze-tolerant frog *Rana sylvatica*, R1477
during sea acclimatization in Gentoo penguins, R1319

Metergoline

effect on feeding behavior in satiated rats of injections into intraventricular and intraparenchymal nucleus, R1562

Microcirculation

analysis to determine presence of extravascular protein in kidney medulla, R1429
cerebral, regulation, role of excitatory amino acids in, R158

Microdialysis

analysis of response to light of rat pineal melatonin rhythm, R1849
determination of local effects of nitric oxide in paraventricular nucleus of rats, R306

Micturition reflex

in vitro brain stem-spinal cord-bladder preparation, from neonatal rat, R658

Mineralocorticoids

action on neurons, in rats, R564

Minoxidil

effects in rats, R458

Mirounga angustirostris

pups, cardiorespiratory patterns in, R863

Mitogenesis. See Mitogens**Models, mathematical**

multivariate approach to quantitative modeling of biological systems, R1697
of sodium uptake by freshwater animals, R315

Monoamines

cerebrospinal fluid concentrations, in fetal and newborn sheep, R472

Monoamines, biogenic. See Biogenic monoamines**Monosaccharide transport proteins**

adaptation of muscle glucose transport with caloric restriction in adult, middle-aged, and old rats, R1443

Monosodium glutamate

canine taste responses to, enhancement by salts, R944

Motor activity

endotoxin-induced changes in, in mice, R125

Multivariate data analysis. See Data interpretation, statistical**Muscarinic acetylcholine receptors. See Receptors, muscarinic****Muscarinic receptors. See Receptors, muscarinic****Muscle, smooth**

conversion of ANG I to ANG II by serine proteinase inhibitor in human detrusor muscle, R1861
serotonin-induced contraction, in rat pylorus, R284
serotonin receptor-mediated responsiveness in, modulation of, R221
urinary bladder, hypertrophy and neuroplasticity, after mechanical stress, R20
vascular, mitogenesis and proliferation, ANF-C-receptor-mediated inhibition of, R194

Muscles

allometry, and body mass, in mammals, R1022

antioxidant enzyme activity in, effect of exercise and fiber type on, in rats, R375

blood flow to, insulin-induced stimulation of, R809

changes in sympathetic nerve activity during positive-pressure breathing in humans, R1220

effect of muscular activity on Na^+ - K^+ -ATPase levels, in young pigs, R102

estimates of muscle power output combined with measures of lift and power to predict burst and sustainable performance relative to size, R1077

glycogenolysis, adrenergic-stimulated, in perfused hindlimb of rats, R749

growth and metabolism of gastrointestinal and skeletal muscle tissue in protein-malnourished neonatal pigs, R1736

insulin resistance, with high-fat diet, in rats, R95

Na^+ - K^+ pump in, effect of muscular morphology and activity on, in pigs, R102

net lactate as result of muscle lactate production and utilization, R1095

oxidative, of striped bass, thermal acclimation and carnitine palmitoyl-transferase I activity in, R405

purine exchange in, with short-term exhaustive exercise, R81

reflex control of hormone secretion and mobilization of glucose during exercise, R824

Myocytes. See Cells, heart muscle

Myofibers

type and size, effect on Na^+ - K^+ -ATPase concentration in skeletal muscle, in young pigs, R102

Myolysis

noninvasive evaluation of, in horses, R434

Myometrium

effect of ethanol on fetal myometrial activity, R1297

N

Na^+ - K^+ -ATPase

in skeletal muscle, effect of muscle morphology and activity on, in young pigs, R102

Naloxone

attenuation by peripheral naloxone of lipopolysaccharide fever by action external to blood-brain barrier, R1824

augmentation of sympathetic outflow induced by endothelin in rabbits, R1403

Natriuresis

pressure, in angiotensin II-induced hypertension, in rats, R739

Natriuretic hormone

See also Atrial natriuretic factor
brain, in SHR with malignant hypertension, R451

C-type: receptor proteins and biological effects in rat renal glomerulus, R1383

interaction in brain with renal, endocrine, and hemodynamic factors in normal men, R1244

Neonate. See Infant, newborn

Nephrectomy

circadian rhythm and time course of adaptive sodium and potassium excretion in rats with, R1454

Nerve fibers

parasympathetic vasodilator fibers in trigeminal portion of cat tongue lingual nerve, R1517

Nerve growth factor

in urinary bladder, after mechanical stress, in rats, R20

Neuroendocrine system. See Neurosecretory system

Neurons

cardiovascular, in rostral ventrolateral medulla, tonic excitation from PRF neurons, R237

contribution of capsaicin-sensitive neurons to gastroprotective effect of RX-77368 thyrotropin-releasing hormone, R1610

effect of inhibition of neuronal function in A_1 region of medulla oblongata on vasopressin secretion, R1885

effect of peripheral bombesin on afferent and efferent gastric and cervical neural pathways, R1868

effect on solitary nucleus neurons of plasma hypernatremia, R1916

esophageal motor neurons in rats, R622

evolution of neuropeptides within autonomic neurons of Australian lungfish, R1568

c-fos gene expression in ferret dorsal vagal complex after peripheral emetic stimuli, R1118

functional capacity of nicotine-sensitive canine intrinsic cardiac neurons to modify heart, R1127

pressor neurons above suprapontine level elicit increases in sympathetic nerve activity during cerebral ischemia, R1832

serotonergic and adrenergic inputs with stimulation of rostral ventrolateral medulla, in rats, R338

thermal effects on neuronal activity in suprachiasmatic nuclei of hibernators and nonhibernators, R1259

vasomotor, in rat rostral ventrolateral medulla, response to hypoxia, R245

Neuropeptides

in Australian lungfish *Neoceratodus forsteri*: effects on autonomic nerves, R1568

Neuropeptide Y

antilipolytic effect in mammal adipocytes, R1141

effect on adrenergic and cholinergic transmission in rat urinary tract, R1411

in hypothalamic paraventricular nucleus, R1765

increase in gene expression with stimulation of type II corticosteroid receptor in basomedial hypothalamus of rats, R1523

messenger RNA in rats after high-carbohydrate or -fat diets, R1578

role of hypothalamic NPY gene expression on body weight regulation, R1687

Neuropharmacology

high-flow microinfusion technique for drug delivery to brain, R292

Neurosecretory system

response of magnocellular system in rats to hypovolemia and cholecystokinin during pregnancy and lactation, R1327

Neurotransmitters

effect of neuropeptide Y on adrenergic and cholinergic transmission in rat urinary tract, R1411

in parabrachial nucleus mediating visceral input to rat thalamus, R1287

Neutrophils

effect on anti-inflammatory function with decentralization of rat superior cervical ganglia, R1537

release of interleukin-6 from wound-derived, R1840

Newborn. See Infant, newborn

Nitric oxide

blockade-induced hypertension: angiotensin II and α_1 -adrenergic tone, R1470

regulation of food intake, in obese and diabetic mice, R164

renin release in rats during blockade of, R1723

role for nitric oxide-cGMP signaling pathway: control of epithelial function in *Drosophila*, R1716

synthesis, inhibition, effect on sleep, in rabbits, R151

Nitric oxide synthase

induction by interleukin-1 β and tumor necrosis factor- α in rat vascular smooth muscle cells, R1197

Nitro-L-arginine

cerebrovascular effects of, in rats, R518

Nitro-L-arginine methyl ester (L-NAME)

effect on cerebrovasodilation elicited by hypercapnia, R546

effect on spontaneous and interleukin-induced sleep, in rabbits, R151

renin release in rats with L-NAME inhibition of nitric oxide synthase, R1723

Norepinephrine

chronic infusion, effect on glucose uptake in adipose tissue, R914

effects of 8-OH-DPAT administration into midbrain nuclei on norepinephrine-induced food intake, R1645

turnover, effect of central interleukin-1 on, in rats, R400

Nuclear magnetic resonance

phosphorus-31: in pH determination, pH error from, R638

phosphorus-31: of liver, during intravenous infusion of 2,5-anhydro-D-mannitol, in rats, R112

Nucleus tractus solitarius

cardiovascular regulation in, serotonergic mechanisms for, in SHR, R599

effects of plasma hypernatremia on, R1916

response to microinjection of L-glutamate, in rats, R730

Nutrition

See also Parenteral nutrition

factors influencing compensatory feeding during parenteral nutrition in rats, R1928

Nutrition (continued)

meal patterns of macronutrient intake in rats with dietary preferences, R1395

Nutrition disorders

growth and metabolism of gastrointestinal and skeletal muscle tissue in protein-malnourished neonatal pigs, R1736

O**Obesity**

contribution of corticosterone types I and II to hyperinsulinemia and hyperphagia in ventromedial hypothalamic lesion-induced obesity, R1623
food intake in, nitric oxide regulation of, in mice, R164
influence on changes in brown fat thermogenic capacity during fasting and refeeding in obese mice, R1907
insulin sensitive adipocytes from inbred mouse strains resistant or sensitive to diet-induced obesity, R1423
NIDDM associated with, animal model of, R921

Olfactory bulb

effect of bilateral removal on inhibitory effect of food restriction on reproductive function, R1891

Oligohydramnios

fluid balance during, in fetal sheep, R972

Oligonucleotides

effect of blockade of expression of *c-fos* gene by antisense nucleotide, R1418

Oncogenes

c-fos, baroreceptor-mediated expression of, in C1 neurons, R361

Opioids

endogenous, effect on male rat sexual behavior, R606

Orexigenic agents

and dietary self-selection, R426

Osmolality

plasma osmolality and carotid sinus pressure, effect on plasma vasopressin, in rabbits, R796
vasopressin response to hyperosmolality in ovine pregnancy, R188

Osmolar concentration

effects of acute salt loading on vasopressin mRNA level in rat brain, R1591

Ovariectomy

pressor responses in ovariectomized rats to sex steroids, R1267

Oxygen

oxygen-18 in doubly labeled water method to estimate energy expenditure in sheep, R169

Oxygen consumption

in response to bacterial endotoxin (LPS), in rats, R1
in sinoaortic-denervated rats, R387
uptake, and cardiac vagal tone, in dogs, R838

Oxytocin

modulation of central action of arginine vasopressin, R592

P**Pancreas**

cholecystokinin-B/gastrin receptors in pancreatic cancer, R277

evidence for pancreatic pacemaker for insulin oscillations in low-frequency range, R1786
pancreatic cancer growth, and cholecystokinin, R277

Pancreatic hormones

effect of hepatic portal infusion of pyruvate on hormone response during exercise, R1630

Parabrachial nucleus

neurotransmitters mediate visceral input to rat thalamus, R1287
parabrachial nuclear complex: neuron discharge, cholinergic manipulation of, R136

Paraplegia

autonomic functions and orthostatic responses after acute intense exercise, R1189

Parasympathetic nervous system

and fractal component of human heart rate variability, R40
vasodilator fibers in trigeminal portion of distal lingual nerve in cat tongue, R1517

Parasympathomimetics

of medial septal area, cardiovascular effects of, in rats, R496

Paraventricular nucleus

cardiovascular regulation involving, spinal vasopressin, in, R228
as a center coordinating energy metabolism, R1765
lesions, effect on alcohol-induced ACTH release, in rats, R553
nitric oxide actions in, R306

Parenteral nutrition

metabolic challenges during, hepatic vagotomy effects on, in rats, R646
metabolic control of satiety during, in rats, R381

Peptides

joining peptide pressor effect: ANG II in, R802

Pericardium

extracardiac effects of intrapericardial blocking agents in dogs, R1970

Periodicity

persistence of circadian rhythmicity in hibernating ground squirrels, R1251

pH. See Hydrogen ion concentration**Pharyngeal nerves**

involvement of 5-HT₃ receptors in initiation of pharyngeal reflex, R1652

Phenylalanine

kinetics, during endotoxemia in humans, R419

Phosphates

effect of loading on 2,5-anhydro-D-mannitol-induced decrease in ATP and increase in food intake, R1792
excretion, in acute hypoxia, in rats, R578

Phosphoramidon

hemodynamic effects of, in fetal sheep, R929

Pineal body

avian pineal cells, melatonin output, temperature effect on, R50
response to light of rat pineal melatonin rhythm: evaluation by microdialysis, R1849

Pituitary-adrenal system

effect of surgery on system response to repeated hemorrhage, R1976

Plasma

active and inactive reninlike enzymes in pregnant wallaby, R1353
circadian and ultradian rhythms of plasma thyroid hormone concentrations in lactating dairy cows, R1797
effect of changes in plasma sodium concentrations on firing of nucleus tractus solitarius neurons, R1916
in fatty acid transport in highly aerobic mammal, R1280
importance of plasma ANG I with overflow of ANG II from canine skeletal muscle in vivo, R1664
relation between plasma and brain amino acid profiles and short-term food intake in rat, R1675

Plasma proteins. See Blood proteins**Plasma volume**

atrial natriuretic peptide effect on, in streptozotocin-induced diabetes, in rats, R584
during exercise after low- and high-carbohydrate diets, R1896
measurement, after hemorrhage and fluid resuscitation, in rats, R368

Pneumotaxic center, R136**Polypnea**

cocaine-induced, in rats, R696

POMC. See Pro-opiomelanocortin (POMC)**Pontine reticular formation**

neurons, tonic sympathoexcitation from, R237

Potassium

circadian rhythms and time course of adaptive sodium and potassium excretion in rats after uninephrectomy, R1454

Preferences

after deafferentation and desalivation, in Fischer 344 rats, R510
meal patterns of macronutrient intake in rats with dietary preferences, R1395

Pregnancy

and hypoxia, R765
influence on atrial natriuretic factor release from isolated rat atria, R1605
response of magnocellular system in rats to hypovolemia and cholecystokinin during, R1327

Pressoreceptors

arterial and cardiopulmonary, in control of efferent renal sympathetic nerve activity, in cardiac failure, in rats, R27
association with sinoaortic baroreceptor deafferentation with loss of osmotic thirst in multiple system atrophy, R1752
in body temperature regulation, in rats, R387
control of efferent renal sympathetic nerve activity, in cardiac failure, R27
left heart and arterial, interaction in regulation of plasma vasopressin, renin, and cortisol, in dogs, R879
response, during air embolism, R790
response to L-glutamate microinjection into nucleus tractus solitarius, in rats, R730

- use of sinoaortic denervation to study baroreceptor role in regulation of cardiovascular circulation, R1705
in vasopressin response to hypovolemia, R714
- Pressure**
See also Blood pressure
analysis of extravascular protein in renal medulla to determine evidence for oncotic pressure, R1429
hemodynamic effects of lower body negative pressure in insulin-dependent diabetes mellitus, R442
increased postnodal intestinal lymphatic pressure without increased neck vein pressure during intravenous infusions, R1596
in kidney proximal tubule as a determinant of glomerular filtration rate after inhibition of reabsorption, R1544
- Progesterone**
effect on pressor responses in ovariectomized rats, R1267
- Prolactin**
calcitropic effect of recombinant prolactins in tilapia *Oreochromis mossambicus*, R1302
- Pro-opiomelanocortin (POMC)**
gene transcription kinetics in response to stress, in rats, R353
- Prostaglandins**
antipolytic effect of prostaglandin E₁ in mammal adipocytes, R1141
effect of brief mesenteric ischemia on prostaglandin E₂ and prostaglandin I₂ in intestinal lymph of cat, R1692
effect of ethanol on fetal prostaglandin E₂ activity, R1297
effect on monamine concentration in cerebrospinal fluid, in fetal and newborn sheep, R472
in hypothermia and febrile response to bacterial endotoxin, in rats, R1
prostaglandin H₂-thromboxane A₂ receptor role in control of kidney function in Lyon hypertensive rat, R1530
- Protease inhibitors**
contractile responses of human detrusor muscle in presence of different, R1861
- Protein kinase C**
regulation by rat renal cell exposure to phorbol 12-myristate 13-acetate, R46
- Proteins**
See also Heat shock
analysis of extravascular protein in renal medulla, R1429
charge state, ¹H-NMR measurement of, in intact animals, R1008
effect of low-protein diet on muscle tissue growth and metabolism in neonatal pigs, R1736
receptor proteins and biological effects of C-type natriuretic peptides in rat renal glomerulus, R1383
requirement for molt in king penguin, R1182
- Pulmonary stretch receptors**
interaction with chemoreceptor inputs at medullary respiratory neurons, R1951
- Pulmonary surfactants**
composition and function in air-breathing fish lung, R1309
- Pylorus**
serotonin-induced contraction in, via 5-HT₂-like receptor, in rats, R284
- Pyruvates**
effect of hepatic portal infusion of pyruvate on pancreatic hormone response during exercise, R1630
- R**
- Receptors, adrenergic**
adrenergic-β₃ in lipolytic activation, in garden dormouse adipocytes, R896
adrenergic-β₃ receptors in lipolytic activation, R905
α-adrenergic agonist antipolytic effect in mammal adipocytes, R1141
α₁-adrenergic tone in chronic nitric oxide blockade-induced hypertension, R1470
α₁-adrenoreceptor inhibition effect on intrarenal hemodynamics in SHR, R1437
effect of intrapericardial blockade of β-adrenergic receptor in dogs, R1970
effect of thermogenic β₃-agonist CL-316,243 on energy balance and brown and white adipose tissue in rats, R1371
β-receptor blockers in fractal heartbeat dynamics, R40
- Receptors, angiotensin**
central antagonism to ANG II receptor modulates adjustment to heat stress by autonomic nervous system, R1985
- Receptors, atrial natriuretic factor**
as mediators of vascular smooth muscle mitogenesis and proliferation, R194
- Receptors, cholecystokinin**
identification and characterization, in human pancreatic cancer cell lines, R277
- Receptors, gastrin**
identification and characterization in human pancreatic cancer cell lines, R277
- Receptors, histamine**
and human platelet serotonin uptake, R526
- Receptors, insulin**
activity in skeletal muscle of carnivorous and omnivorous fish, R1944
- Receptors, interleukin-1**
contribution to suppression of feeding after acute colitis in rats, R1659
- Receptors, muscarinic**
characterization, in avian exocrine cells, R674
reciprocal supersensitivity in rat left atrium, R487
- Receptors, odorant**
temperature increase effect on ability of turtle olfactory receptors to discriminate similar odorant, R1816
- Receptors, peptide**
natriuretic peptide receptors: atrial and C-type in rat renal glomerular, R1383
- Receptors, purinergic**
effect of ATP-MgCl₂ treatment after hemorrhagic shock and resuscitation on hepatocyte P₂-purinoceptor binding capacity, R1810
hepatocyte P₂-purinoceptor binding capacity after hemorrhagic shock and resuscitation, R1804
- Receptors, serotonin**
involvement of 5-HT₃ receptors in initiation of pharyngeal reflex, R1652
in rat pylorus, R284
type 2 (5-HT₂), desensitization, reflected by decay of contraction in guinea pig trachea, R221
- Receptors, steroid**
relative contribution of corticosterone types I and II receptors in ventromedial hypothalamic lesion-induced obesity and hyperinsulinemia, R1623
stimulation of type II corticosteroid receptor increases neurotrophin Y gene expression in basomedial hypothalamus of rat, R1523
- Receptors, N-methyl-D-aspartate**
in regulation of rat cerebral microcirculation, R158
- Reflex**
bladder-to-bladder lumbosacral, in neonatal rats, R658
perineal-to-bladder, in neonatal rats, R658
role of 5-HT₃ receptors in initiation of pharyngeal reflex, R1652
- Reflex, baroreceptor. See Baroreflex**
- Renal circulation**
effect of L-arginine on perfusion pressure transmission to renal interstitium in Dahl salt-sensitive rats, R1730
effects of angiotensin-converting enzyme and α₁-adrenoreceptor inhibition on intrarenal hemodynamics in SHR, R1437
kidney function during chronic anemia in ovine fetus, R1759
role of prostaglandin H₂-thromboxane A₂ in control of renal function in Lyon hypertensive rat, R1530
- Renal nerve activity**
during air embolism, R790
effect on renin secretion in pregnant ewes, R668
during furosemide diuresis, in rats, R537
in heart failure, R27
response to microinjection of serotonin and L-glutamate, R599
- Renin**
levels of active and inactive reninlike enzymes in plasma and reproductive tract of pregnant wallaby, R1353
regulation of secretion in dogs, R879
regulation of secretion in rats, R1032
release in rats during blockade of nitric oxide synthesis, R1723
response to atrial pressure, in dogs, R714
secretion, in pregnant sheep, R668
- Renin-angiotensin system**
See also Angiotensin II
exercise effects on, in pigs, R118
in pregnant and nonpregnant ewes, R668

Renin-angiotensin system (*continued*)
in pressor response evoked by rat joining peptide, R802
and salt appetite in rats, R458

Reproduction

effect on gonadotropin secretion in hamsters with bilateral removal of olfactory bulbs, R1891

Respiration

changes in muscle sympathetic nerve activity and renal function during positive-pressure breathing in humans, R1220
effect of ethanol on fetal breathing, fetal prostaglandin E_2 , and myometrial activity, R1297
effects of repeated hypoxia in newborn rabbits, R1584
interaction between chemoreceptor and pulmonary stretch receptor inputs at medullary respiratory neurons, R1951
intrapulmonary chemoreceptor response to increased venous PCO_2 in birds, R15
regulation, thromboxane A_2 in, in rabbits, R321
respiratory depression: pontine reticular mechanisms in, in cats, R136

Respiratory alkalosis. See Alkalosis, respiratory

RNA, messenger

effect of acute salt loading on vasopressin mRNA level in rat brain, R1591
effect of high-carbohydrate and -fat diets on hypothalamic neuropeptide Y mRNA and brown fat uncoupling protein mRNA in rats, R1578

Rostral ventrolateral medulla

See also Medulla oblongata

C1 PNMT-containing neurons, response to changes in baroreceptor input, R361
neurons, tonic sympathoexcitation from pontine neurons, in rats, R237
vasomotor neurons, selective excitation in hypoxia, in rats, R245

Rubidium

in X-ray microanalysis of *Locusta* Malpighian tubule cell function, R1551

S

Salivary glands

removal, effect on salt preference in rats, R510

Salmon

parr-smolt transformation, growth hormone effect during, R850

Salt. See Sodium chloride

Salt gland

avian, muscarinic receptors, characterization of, R674

Satiety

cholecystokinin-stimulated, in rats, R466
endogenous satiety substance: effects on plasma glucose, corticosterone, and catecholamines, R413
metabolic influences on, during parental nutrition, in rats, R381
response in rats, R633

Sensitivity and specificity

See also Species specificity
reciprocal muscarinic, in rat left atrium, R487

Serine proteinase inhibitors

conversion of ANG I to ANG II in human detrusor smooth muscle, R1861

Serotonergic neurons. See Serotonin antagonists

Serotonin

characterization of interaction between central 5-HT and norepinephrine systems in control of food intake, R1645
contraction induced by, modulation of rate of decay of, in guinea pig trachea, R221
metabolism, with various insulin treatments, in diabetic rats, R87
NTS-injected, in spontaneously hypertensive rats, R599
pyloric contraction induced by, via 5-HT₂-like receptor, in rats, R284
in sympathetic responses evoked by stimulation of rostral medulla, R338
tropisetron 5-HT₂ serotonin receptor effect on anorectic responses to dietary amino acid imbalance, R1922
uptake, in human platelets, histamine receptors and, R526
uptake and compartmentation, in human platelets, R1061

Serotonin agonists

effects of 8-OH-DPAT [8-hydroxy-2-(di-*n*-propylamino)tetralin] on medial hypothalamic norepinephrine-induced food intake, R1645

Serotonin antagonists

effect of metergoline injections into intraventricular and intraparaventricular nucleus on feeding behavior in satiated rats, R1562

Shock, hemorrhagic

effect of ATP-MgCl₂ treatment after hemorrhagic shock and resuscitation on hepatocyte P₂-purinoreceptor binding capacity, R1810
hepatocyte P₂-purinoreceptor binding capacity after trauma-hemorrhage/resuscitation, R1804

Skeletal muscle

adaptation of muscle glucose transport with caloric restriction in adult, middle-aged, and old rats, R1443
effect of lactate concentration and metabolic rate on net lactate uptake by canine skeletal muscle, R1095
endothelium-derived relaxing factor role in reactive and active hyperemia in dog hindlimb, R1213
importance of ANG I with overflow of ANG II from canine skeletal muscle in vivo, R1664
insulin receptor activity in carnivorous and omnivorous fish, R1944
involvement in sucrose-induced insulin resistance: dose-response studies, R1637

Sleep

homeostatic control of REM-sleep timing, R1992
interleukin-1 β antibodies and, in rats, R688

nitric oxide synthesis and NREM sleep in rabbits, R151

regulation of, nitric oxide's role in, in rabbits, R151

REM sleep firing rates of respiratory and nonrespiratory neurons in, cholinergic mechanisms affecting, in cats, R136

REM sleep regulation, nitric oxide synthesis and, in rabbits, R151

Sodium

circadian rhythm and time course of adaptive sodium and potassium in rats after uninephrectomy, R1454
postprandial excretion with renal denervation in experimental heart failure, R1599
uptake, by freshwater animals, ion-exchange and proton pump hypotheses, R315

Sodium-calcium exchange

effect of vasopressin in rat brain on, R1169
in rat platelets, R651

Sodium chloride

intake of rats, R458
neuronal mechanism in appetite for sodium chloride in rats, R564
salt preference after deafferentation and desalivation in Fischer 344 rats, R510
sodium appetite, thirst, and body fluid regulation in humans during rehydration without sodium replacement, R1493

Sodium-hydrogen exchange

in intracellular pH regulation in turtle myocytes, R1238

Sodium-potassium pump. See Na⁺-K⁺-ATPase

Solitary nucleus

c-fos gene expression in ferret dorsal vagal complex after peripheral emetic stimuli, R1118

Species specificity

specificity of imino acid carrier in rat small intestine, R1154

Spectral analysis

coarse-graining, applied to long-term heart rate variability in humans, R40

Spinal cord

cervical, neurons, viscerosomatic convergence on, in rats, R268
generation of functionally significant sympathetic activity in awake rat, R1102
viscerosomatic convergence in, in rats, R257, R268

Splanchnic nerves

input from, processing of, in spinal cord of rat, R257, R268

Stress

calcium metabolism and gastric lesions in, in rats, R960
effect of hypotonic stress in skate erythrocytes, R59
immunologic effects of, in humans, R75
modulation of adjustment to heat stress by central ANG II receptor antagonism, R1985
psychological, physiological response to, in humans, R75
response in rats, strain differences in, R353

Stress proteins. See **Heat shock****Sucrose**

duodenal infusions, and suppression of sham feeding, in rats, R466

Superoxide dismutase

activity in skeletal muscle, after exercise, in rats, R375

Suprachiasmatic nucleus

thermal effects on neuronal activity of hibernators and nonhibernators, R1259
thermosensitivity to circadian rhythm in rat, R1876

Surgery

pituitary-adrenal system response to repeated hemorrhage after, R1976

Swallowing. See **Deglutition****Sweat**

eccrine, interleukin-1 α in, R950

Sympathetic nervous system

See also **Parasympathetic nervous system**

cardiovascular response to interleukin-1 β , R1148

changes in muscle sympathetic nerve activity and renal function during positive-pressure breathing in humans, R1220

effect of intrahypothalamic insulin in rats drinking high-sucrose solution, R1463

effect of intrapericardial blocking agents on renal nerve activity in dogs, R1970

endothelin-induced sympathetic outflow augmented by naloxone in rabbits, R1403

in fractal component of heart rate variability in humans, R40

generation by spinal cord of functionally significant sympathetic activity in awake rat, R1102

interleukin-1 effect on, in rats, R400
response to paraventricular nucleus stimulation, vasopressin's role in, R228

role in brown fat thermogenesis with hypothalamus stimulation; rats, R328

Sympathoexcitation

with hypoxia-stimulated rostral ventrolateral medulla vasomotor neurons, R245

medulla and, R338

tonic, from pontine reticular neurons to neurons in rostral ventrolateral medulla, in rats, R237

T**Tachycardia**

reflex tachycardia in insulin-treated rats, R481

Temperature

acclimation, in trout hepatocyte plasma membranes, R773

compensation in suprachiasmatic nucleus of hibernators and nonhibernators, R1259

dual core and shell temperature regulation during sea acclimatization in Gentoo penguins, R1319

effect of increase on ability of turtle olfactory receptors to discriminate similar odorant, R1816

effect on carnitine palmitoyltransferase I activity, in oxidative red muscle of striped bass, R405

effect on melatonin output in cultured chick pineal cells, R50

effect on Na⁺-K⁺-ATPase concentration in skeletal muscle, in young pigs, R102

effects of temperature and freezing on hepatocytes isolated from freeze-tolerant frog *Rana sylvatica*, R1477

metabolic response to, in sinoaortic-denervated rats, R387

role of decreased set point for temperature regulation in potential adaptation to acute hypoxia, R1615

sensitivity of circadian rhythm of suprachiasmatic neurons in vitro, R1876

Tendon

limb, biomechanical properties of, relationship to body mass in adult mammals, R1016, R1022

Tetraethylammonium

transport by isolated perfused and nonperfused avian renal proximal tubules, R1085

Thalamus

neurotransmitters in parabrachial nucleus mediate visceral input to rat thalamus, R1287

Thermogenesis

evaluation of influence of obesity on changes in brown fat thermogenic capacity during fasting and refeeding of obese mice, R1907

in interscapular brown adipose tissue, with hypothalamic stimulation, in rats, R328

reduced, in hypothermia response to bacterial endotoxin, in rats, R1
response induced by ethanol ingestion in humans, R1204

Thermoregulation. See **Body temperature regulation****Thirst**

loss of osmotic thirst in multiple system atrophy, R1752

sodium appetite, thirst, and body fluid regulation in humans during rehydration without sodium replacement, R1493

Thymidine kinase

activity in aortic smooth muscle, ANF-C-receptor-mediated inhibition of, R194

Thyroid hormones

circadian and ultradian rhythms of plasma thyroid hormone in lactating dairy cows, R1797

effect on Na⁺-K⁺-ATPase concentration in skeletal muscle, in young pigs, R102

Thyrotropin-releasing hormone

gastroprotective effect of thyrotropin-releasing hormone analogue RX-77368 against ethanol injury, R1610

Thyroxine

evolution in marsupials and other vertebrates of thyroxine-binding plasma proteins, R1359

Tilapia

calcitropic effects of recombinant prolactins in *Oreochromis mossambicus*, R1302

Time factors

in dynamics of intake suppression after preload, R1314

homeostatic control of REM-sleep timing, R1992

in study of effect of cortisol on inhibition of basal plasma vasopressin concentrations in dogs, R1744

time course of adaptive sodium and potassium excretion in rats after uninephrectomy, R1454

Trachea

serotonin-induced contraction decay, modulation, in guinea pig, R221

Tropisetron. See **Serotonin****Tumor necrosis factor**

as endogenous pyrogen; effect of γ -MSH infusion on fever in guinea pigs, R614

in hypothermia response to bacterial endotoxin, in rats, R9

TNF- α induction of nitric oxide synthase in rat vascular smooth muscle cells, R1197

Turtle

oxidative properties of heart and liver mitochondria from, R858

Tyrosine kinase

insulin receptor tyrosine kinase activity in skeletal muscle of carnivorous and omnivorous fish, R1944

U**Ulcer**

protective effect of anti-ulcer agents in LHA-lesioned rats, R503

role of endogenous arginine vasopressin in development of gastric ulcer induced by restraint and water immersion, R1448

strain differences in rat stress ulcer, R353

Ultradian cycles. See **Activity cycles****Umami substances**

canine taste responses to, enhancement by salts, R944

Uncoupling agents

influence of high-carbohydrate and -fat diets on hypothalamic neuropeptide Y mRNA and brown fat uncoupling protein mRNA, R1578

Urate oxidase

transport of urate by isolated perfused and nonperfused avian renal proximal tubules, R1085

Uric acid

in liver and muscle, after strenuous short-term exercise, R81

Urinary tract

inhibition by neuropeptide Y on adrenergic and cholinergic transmission in rat urinary tract, R1411

Urine

flow response in ovine fetuses to 24 hours of hypoxia, R1345

Urogenital system

levels of active and inactive reninlike enzymes in plasma and reproductive tract of pregnant wallaby, R1353

Uterus

levels of active and inactive reninlike enzymes in pregnant wallaby, R1353

V**Vagotomy**

hepatic, effects on metabolic challenges during parenteral nutrition in rats, R646

and postingestive alliesthesia produced by cholecystokinin, in rats, R633

Vagus nerve

as afferent pathway in satiety response, in rats, R633

effect of peripheral bombesin on gastric vagal efferent activity in rats, R1868

effect of vagotomy on anorectic responses to amino acid imbalance, R1922

role of 5-HT₃ receptors in initiation of pharyngeal reflex, R1652

vasopressin secretion after stimulation: role of A₁ norepinephrine neurons, R1885

Vasodilation

of rainbow trout blood vessels by angiotensin II in vitro, R1856

spontaneous cerebral, and EEG bursts, in rats, R204

Vasopressin

See also Arginine vasopressin

effects of acute salt loading on vasopressin mRNA level in rat brain, R1591

effects on oxygen consumption, and cardiac vagal tone, in dogs, R838

in hypothermia response to bacterial endotoxin, in rats, R9

increases in cortisol inhibit basal vasopressin release in dogs, R1744

inhibition of calcium-coupled sodium efflux system in rat brain, R1169

plasma, regulation by plasma osmolality and carotid sinus pressure, in rabbits, R796

secretion after stimulation of abdominal vagus in rabbit: A₁ norepinephrine neuron role, R1885

in sympathetic response to paraventricular nucleus stimulation, in rats, R228

Venous pressure

effect of simulated microgravity on pulmonary circulation baroreflex control of forearm vascular resistance, R1962

Ventromedial hypothalamus

lesion, and high-fat diet, in rats, as model of NIDDM, R921

Visceral afferents

differential processing of information from, in rats, R257

input from, spinal cord transmission of, in rats, R268, R257

Viscerosomatic convergence

thoracic, in rats, R257

Volume

See also Blood volume

comparative physiology of volume regulation, R59

furosemide-induced depletion, renal nerve activity during, in rats, R537

W**Water channels**

with plasma volume and ion regulation during exercise after low- and high-carbohydrate diets, R1896

Water-electrolyte balance

and cardiovascular regulation, in rats, R496

Wound healing

interleukin-6 activity in, R1840

X

X-ray microanalysis. *See Electron probe microanalysis*
